Jhan Maurice De Roxas

has successfully completed the online Specialization

AWS Certified Data Analytics Specialty (2023) Hands-on

Congratulations on successfully completing AWS Certified Data Analytics Specialty (2023) Hands-on! You've mastered key AWS services, starting with real-time data ingestion using Amazon Kinesis and SQS to build scalable pipelines. You then explored data storage and processing with Amazon S3, DynamoDB, and Redshift, optimizing performance and security. Finally, you worked with Amazon QuickSight, OpenSearch, and Athena to analyze and visualize data. Well done on gaining practical AWS skills and preparing for the certification exam—your expertise in AWS data analytics is now ready for real-world application!

This certificate attests to the learner's completion of an online program delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.
